FROM:

RMO/ICS

STAT

SUBJECT:

DACOM Patch Procedure for AMES/CIA Headquarters Line

STAT

I have talked with Office of Information Technology (OIT) engineers and CIA Operations Center (Ops Ctr) personnel to resolve the problems the Ames ISC staff have encountered in trying to DACOM messages to CIA Headquarters (hqs). These people all agree that your equipment and the current communications lines are sufficient to satisfy this requirement.

STAT

In any case, DACOM from AMES to Hqs is possible and should be used in lieu of routing through CHB. I appreciate any help you can provide on this and assure you that I will further assist you in any way I can. Thanks again.
